Our secondary market provides liquidity to our nation's agricultural and infrastructure finance businesses, supporting a vibrant and strong rural America. We offer a wide range of solutions to help meet financial institutions' growth, liquidity, risk management, and capital relief needs across diverse markets, including agriculture, agribusiness, broadband infrastructure, power and utilities, and renewable energy. We are uniquely positioned to facilitate competitive access to financing that fuels growth, innovation, and prosperity in America's rural and agricultural communities.

"A strong agriculture economy starts with dependable access to affordable credit. Farmer Mac plays a critical role in providing liquidity, managing risk, and strengthening the ability of lenders to serve rural America. By supporting competitive financing options, Farmer Mac helps sustain family farms, create jobs, and promote long-term growth in the rural communities that form the backbone of our nation's economy."

— REPRESENTATIVE RANDY FEENSTRA (R-IOWA)

"Rural communities are home to some of the hardest-working people in America. When lenders have access to Farmer Mac's secondary market, families, farmers, and small businesses gain more certainty as they plan for the future. That support helps strengthen hometown economies and preserve small-town ways of life, while helping rural America thrive for the next generation."
