In addition to historical information, this presentation includes forward-looking statements that reflect management’s current expectations for Farmer Mac’s future financial results, business prospects, and business developments. Forward-looking statements include, without limitation, any statement that may predict, forecast, indicate, or imply future results, performance, or achievements. Management’s expectations for Farmer Mac’s future necessarily involve assumptions, estimates, and the evaluation of risks and uncertainties. Various factors or events, both known and unknown, could cause Farmer Mac’s actual results to differ materially from the expectations as expressed or implied by the forward-looking statements. Some of these factors are identified and discussed in Farmer Mac’s Annual Report on Form 10-K for the year ended December 31, 2020, filed with the U.S. Securities and Exchange Commission (“SEC”) on February 25, 2021, Quarterly Report on Form 10-Q for the quarter ended March 31, 2021, filed with the SEC on May 6, 2021, and Quarterly Report on Form 10-Q for the quarter ended June 30, 2021, filed with the SEC on August 5, 2021. These reports are also available on Farmer Mac’s website (www.farmermac.com). Considering these potential risks and uncertainties, no undue reliance should be placed on any forward-looking statements expressed in this presentation. Any forward-looking statements made in this presentation are current only as of June 30, 2021, except as otherwise indicated. Farmer Mac undertakes no obligation to release publicly the results of revisions to any such forward-looking statements that may be made to reflect new information or any future events or circumstances, except as otherwise mandated by the SEC. The information in this presentation is not necessarily indicative of future results.
Use of Non-GAAP Financial Measures

This presentation is for general informational purposes only, is current only as of June 30, 2021 and should be read in conjunction with Farmer Mac’s Quarterly Report on Form 10-Q filed with the SEC on August 5, 2021. In the accompanying analysis of its financial information, Farmer Mac uses the following non-GAAP financial measures: core earnings, core earnings per share, and net effective spread. Farmer Mac uses these non-GAAP measures to measure corporate economic performance and develop financial plans because, in management’s view, they are useful alternative measures in understanding Farmer Mac’s economic performance, transaction economics, and business trends. The non-GAAP financial measures that Farmer Mac uses may not be comparable to similarly labeled non-GAAP financial measures disclosed by other companies. Farmer Mac’s disclosure of these non-GAAP financial measures is intended to be supplemental in nature and is not meant to be considered in isolation from, as a substitute for, or as more important than, the related financial information prepared in accordance with GAAP.

Core earnings and core earnings per share principally differ from net income attributable to common stockholders and earnings per common share, respectively, by excluding the effects of fair value fluctuations. These fluctuations are not expected to have a cumulative net impact on Farmer Mac’s financial condition or results of operations reported in accordance with GAAP if the related financial instruments are held to maturity, as is expected.

Core earnings and core earnings per share also differ from net income attributable to common stockholders and earnings per common share, respectively, by excluding specified infrequent or unusual transactions that Farmer Mac believes are not indicative of future operating results and that may not reflect the trends and economic financial performance of Farmer Mac’s core business.

Farmer Mac uses net effective spread to measure the net spread Farmer Mac earns between its interest-earning assets and the related net funding costs of these assets. Net effective spread differs from net interest income and net interest yield because it excludes: (1) the amortization of premiums and discounts on assets consolidated at fair value that are amortized as adjustments to yield in interest income over the contractual or estimated remaining lives of the underlying assets; (2) interest income and interest expense related to consolidated trusts with beneficial interests owned by third parties, which are presented on Farmer Mac’s consolidated balance sheets as “Loans held for investment in consolidated trusts, at amortized cost;” and (3) beginning January 1, 2018, the fair value changes of financial derivatives and the corresponding assets and liabilities designated in a fair value hedge relationship. Net effective spread also principally differs from net interest income and net interest yield because it includes: (1) the accrual of income and expense related to the contractual amounts due on financial derivatives that are not designated in hedge relationships; and (2) the net effects of terminations or net settlements on financial derivatives.
**Investment Highlights**

**Quality Assets**
- 90-Day delinquencies of only **0.28%** across all lines of business
- Cumulative Farm & Ranch lifetime losses of only **0.12%**

**Funding Advantage**
- Issue at **narrow** Government Sponsored Spreads (GSE) spreads to U.S. Treasuries
- E.g., 10-year U.S. Treasury **+0.16%** as of June 30, 2021

**Growth Prospects**
- Ag productivity **must double** to meet expected global demand
- 6.2% share of an **~$267 billion** and growing U.S. ag mortgage market

**Operational Efficiency**
- Overhead / outstanding business volume **~30 bps**
- **~$800,000 earnings** per employee in 2020

**Quality, Recurring Earnings**
- 99% of total revenues is recurring net effective spread and fees
- Outstanding business volume **CAGR of 10.3%** (2000 to 2020)

**Strong Returns, Responsible Growth**
- Core earnings **ROE ~16%** in 2020 and consistent net effective spread
- Increased quarterly dividend payments for **10 consecutive years**
A Mission-Driven, For-Profit Company

Our Mission
Farmer Mac is committed to help build a strong and vital rural America by increasing the availability and affordability of credit for the benefit of American agricultural and rural communities.

Our Stakeholders
- Farmers, ranchers and rural communities
- Stockholders
- Financial Institutions & Cooperatives
- Employees
- Congress
- Regulators

Our Corporate Social Responsibility
- To help create sustainable, vibrant rural American communities
- We achieve this by conducting our business
  - With absolute integrity
  - By holding ourselves to high ethical standards
  - By promoting a diverse, respectful, and inclusive culture
  - By adopting an Environmental, Social, Governance (ESG) policy statement

[Timeline]
- 1987: Farmer Mac initially chartered by Congress as an instrumentality of the United States
- 1988: Initial public offering, First listed on NASDAQ (FAMCU & FAMCL)
- 1996: First major charter revision and expansion of authority (direct loan purchases)
- 1999: First listed on NYSE (AGM & AGM.A)
- 2008: Second major charter revision and expansion of authority (Rural Utilities)
Executive Leadership

Bradford T. Nordholm
President & Chief Executive Officer

• 40+ years of agricultural and energy finance experience
• Joined Farmer Mac in October 2018 from Starwood Energy Group, a leading private investment firm where he served as CEO and later as Vice Chairman
• Prior experience includes CEO of US Central and management positions at National Cooperative and within the Farm Credit System

Aparna Ramesh
Executive Vice President – Chief Financial Officer & Treasurer

• 20+ years of experience in mission-oriented finance roles
• Joined Farmer Mac in 2020 from Federal Reserve Bank of Boston, where she previously served as Senior Vice President and Chief Financial Officer
• Prior experience includes roles spanning product management, asset-liability management and profitability within Cambridge Savings Bank and M&T Bank

Zachary N. Carpenter
Executive Vice President – Chief Business Officer

• 14+ years of experience in agribusiness banking, capital markets, finance, and corporate strategy
• Joined Farmer Mac in 2019 from CoBank, where he previously served as Managing Director and Sector Vice President of its Corporate Agribusiness Banking Group
• Prior experience includes Executive Director in CoBank’s Capital Markets division and Vice President in Finance and Corporate Strategy at Goldman Sachs

Core earnings and net effective spread are non-GAAP measures. For more information on the use of these non-GAAP measures, please see page 3. For a reconciliation of core earnings to GAAP net income attributable to common stockholders and a reconciliation of net effective spread to GAAP net interest income, please refer to pages 27-28 of the Appendix.
Quality Earnings Drives Strong Dividends

Initiated New Dividend Policy: Target ~30% Payout Ratio of Core Earnings

Increased Target Payout Ratio of Core Earnings to ~35%
Proven, Rigorous Underwriting

**Industry-leading credit requirements**
- Total debt coverage ratio of at least 1.25x
- LTVs average 40% to 45% on mortgages purchased
- Minimum borrower net equity of 50%

**Credits are less likely to default**
- Focus on repayment capacity through stressed inputs
- Not a “lender of last resort”
- Farm Credit Administration is our safety and soundness regulator

**Losses less likely even in default**
- Average LTV of 46% as of June 30, 2021
- Land values need to decline >54% to generate material losses
- “Stress scenario” losses of 17% to 48%
- 1980s crisis saw land value declines of ~23%
Credit Consistently Outperforms

Resources

Footnote 2: Farmer’s Mac’s total excludes loan purchases, LTSPCs, and AgVantage business with rural utilities customers. Market share represents Farmer Mac’s percentage of only Farm Sector Real Estate Debt outstanding.

Footnote 3: Eligible ag real estate mortgage market structure shown includes the forecast for outstanding unpaid principal balance of first lien ag mortgage assets as of December 31, 2019.

Footnote 5: USDA, National Agricultural Statistics Service (as of August 2015). Historic values are not necessarily predictive of future results or outcomes.

Footnote 6: FDIC Call Report Data & Farm Credit Funding Corp Annual Information Statements – Non-accrual real estate loans and accruing loans that are 90 days or more past due made by commercial and Farm Credit System banks (as of June 2020).

Footnote 7: Delinquencies include loans held and loans underlying off-balance sheet Farm & Ranch Guaranteed Securities and LTSPCs that are 90 days or more past due, in foreclosure, or in bankruptcy with at least one missed payment, excluding loans performing under either their original loan terms or a court-approved bankruptcy plan.

Footnote 8: Kansas City Federal Reserve Agriculture Finance Databook (https://www.kansascityfed.org/agriculture/agfinance-updates/).

Footnote 9: Banks’ charge-off rate is a percentage of agricultural loan assets.

Footnote 10: Farm Credit Banks Funding Corporation Annual Information Statements; Farm Credit System’s charge-off rate is the percentage of total loans and guarantees.

Footnote 11: Farmer Mac’s charge-off rate is the percentage of total loans and guarantees.
