Farmer Mac is a vital part of the agricultural credit markets and was created to increase access to and reduce the cost of credit for the benefit of American agricultural and rural communities. As the nation’s secondary market for agricultural credit, we provide financial solutions to a broad spectrum of the agricultural community, including agricultural lenders, agri-businesses, and other institutions that can benefit from access to flexible, low-cost financing and risk management tools. Farmer Mac’s customers benefit from our low cost of funds, low overhead costs, and high operational efficiency.

“…Farmer Mac continues to work with agricultural lenders across the nation to provide the liquidity and capital that is essential for the success of America’s farmers, ranchers and rural electric customers…”

– Congressman Frank Lucas (R-OK)
