Prospectus supplement to prospectus dated March 29, 2000

Federal Agricultural Mortgage Corporation

3

Issuer

Farmer Mac Mortgage Securities Corporation

Depositor

$8,257,250 Guaranteed Agricultural Mortgage-Backed Securities, Series 11/29/00

Consider carefully the risk factors beginning on page S-6 in this prospectus supplement and on page 11 in the prospectus.

This prospectus supplement does not contain complete information about this offering. There is additional information in the prospectus. You should read both this prospectus supplement and the prospectus in full. This prospectus supplement may be used to offer and sell certificates only if accompanied by the prospectus.

We will create a trust fund to hold a pool of agricultural real estate mortgage loans and issue certificates backed by those loans. The trust fund will issue—

	Class QS1018
Approximate original principal amount(1)	$8,257,250
CUSIP number	31317 HAT 2
Approximate initial pass-through rate(2)	7.420%
Payment frequency	Semi-annual
First distribution date	January 25, 2001
Final distribution date	January 25, 2026

(1) May be up to 5% more or less.
(2) Will vary with the weighted average of the interest rates for the mortgage loans in the pool as described in this prospectus supplement.

The Federal Agricultural Mortgage Corporation, which is also known as Farmer Mac, guarantees the timely payment of interest on and principal of the certificates. The obligations of Farmer Mac under this guarantee are obligations solely of Farmer Mac and are not obligations of, and are not guaranteed by, the Farm Credit Administration, the United States or any agency or instrumentality of the United States, other than Farmer Mac, and are not backed by the full faith and credit of the United States.

We will not list the certificates on any national securities exchange or on any automated quotation system of any registered securities association, such as NASDAQ.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

The Depositor is offering the certificates directly. Proceeds to the Depositor from the sale of the certificates will be 100% of the aggregate original principal amount of the certificates, plus accrued interest on the certificates from November 1, 2000, before deducting expenses payable by the Depositor estimated at $5,000.

November 29, 2000

TABLE OF CONTENTS

We provide information to you about the certificates we are offering in two separate documents that progressively provide more detail:

- the accompanying prospectus, which provides general information, some of which may not apply to your certificates; and

- this prospectus supplement, which describes the specific terms of your certificates.

If the description of your certificates varies between this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement.

SUMMARY OF TERMS

This summary highlights selected information from this document and does not contain all of the information that you need to consider in making your investment decision. To understand all of the terms of the offering of the certificates, read carefully this entire document and the accompanying prospectus.

OFFERED SECURITIES

Farmer Mac Mortgage Securities Corporation (the "Depositor"), a wholly owned subsidiary of Farmer Mac, is forming a trust fund to issue Guaranteed Agricultural Mortgage-Backed Securities (the "Certificates") in one class, as listed on the front cover of this prospectus supplement. The Certificates represent beneficial ownership interests in the trust fund. The trust fund's assets consist of:

- a pool of agricultural real estate mortgage loans;
- proceeds and collections on these loans; and
- a guarantee of timely payment of principal and interest on the Certificates by Farmer Mac.

As a holder of the Class QS1018 Certificates, you will be entitled to receive distributions derived primarily from amounts collected on the mortgage loans in the pool designated as QS1018. The Certificates will be issued in an original principal amount approximately equal to the original principal amount of its corresponding pool of mortgage loans, subject to a permitted variance of plus or minus 5% as described in "*Description of the Certificates – General*" in this prospectus supplement.

DISTRIBUTIONS ON THE CERTIFICATES

Distributions on the Certificates will be made on a semi-annual basis on the 25th day of each January and July. If a distribution date falls on a day that is not a business day, the distribution will be made on the next business day. The first distribution date for the Certificates is January 25, 2001.

Distributions on the Certificates will be made only to those persons in whose names the Certificates are registered at the close of business on the last business day of the month prior to the month in which the distribution date occurs.

Distributions of Interest

The Certificates will accrue interest during each Interest Accrual Period at the pass-through rate described in "*Description of the Certificates – Distributions – Interest*" in this prospectus supplement. Accrued interest will be due on each distribution date.

Each "Interest Accrual Period" begins on the first day of the month in which the previous distribution date occurred and ends on and includes the last day of the month preceding the month in which the current distribution date occurs. However, the first Interest Accrual Period will begin on November 1, 2000 and end on and include December 31, 2000.

Distributions of Principal

On each distribution date, principal on the Certificates will be distributed in an aggregate amount equal to the sum of:

- the principal portion of all scheduled payments (including any balloon payments) on the mortgage loans in the pool due during the preceding Due Period;

-- plus --

- the scheduled principal balance of each mortgage loan included in the pool that was repurchased or became a defaulted mortgage loan (if Farmer Mac, as the master servicer of the mortgage loans, has determined that all amounts to be received on the mortgage loan have been recovered) during the preceding Due Period;

-- plus --

- all full or partial principal prepayments on the mortgage loans in the pool received during the preceding Due Period.

Each "Due Period" begins on the second day of the month in which the previous distribution date occurred and ends on the first day of the month in which the related distribution date occurs. However, the first Due Period will begin on November 2, 2000 and end on January 1, 2001.

THE GUARANTEE

Farmer Mac guarantees the timely payment of interest on and principal of the Certificates (including any principal payments required as balloon payments on the related mortgage loans).

Farmer Mac's obligations are not backed by the full faith and credit of the United States.

See "*Farmer Mac Guarantee*" *in this prospectus supplement and* "*Description of the Trust Funds – The Assets in Each Trust Fund – Farmer Mac's Guarantee*" *in the prospectus for additional information concerning Farmer Mac's guarantee.*

THE MASTER SERVICER

Farmer Mac will act as master servicer of the mortgage loans. The mortgage loans will be directly serviced by one or more mortgage servicing institutions we call central servicers, each of which will act on behalf of Farmer Mac under a servicing contract that may be supplemented from time to time.

Optional Termination

Under the conditions described in "*Description of the Agreements – Optional Termination*" in this prospectus supplement, Farmer Mac, as master servicer, has the right to terminate the trust fund and retire the Certificates.

The Trustee

The trustee for the Certificates will be U.S. Bank Trust National Association, a national banking association organized and existing under the federal laws of the United States.

Federal Income Tax Consequences

The trust fund will be treated as a grantor trust for federal income tax purposes and not as an association taxable as a corporation. No election will be made to treat the trust fund as a real estate mortgage investment conduit. *See* "*Material Federal Income Tax Consequences*" *in this prospectus supplement and in the accompanying prospectus for additional information concerning the application of federal income tax laws.*

ERISA Considerations

Subject to important considerations described under "*ERISA Considerations*" in this prospectus supplement and in the accompanying prospectus, if you are investing assets of employee benefit plans or individual retirement accounts, you can purchase the Certificates.

Legal Investment

The Certificates will constitute securities guaranteed by Farmer Mac for purposes of Farmer Mac's charter. Subject to important considerations described under "*Legal Investment*" in this prospectus supplement and in the accompanying prospectus, the Certificates will, by statute, be legal investments for some types of institutional investors.

If your investment authority is subject to legal restrictions, you should consult your own legal advisors to determine whether and the extent to which Certificates constitute legal investments for you.

Offices of Farmer Mac and the Depositor

The principal executive offices of Farmer Mac and the Depositor are located at 919 18th Street, N.W., Washington, D.C. 20006. The telephone number there is (202) 872-7700.

RISK FACTORS

You should carefully consider the following risks, together with the risks set forth in "Risk Factors" in the prospectus, before investing in the Certificates. If any of the following risks actually occur, your investment could be materially and adversely affected.

The Mortgage Loans Are Not Subject to Yield Maintenance Charges. None of the mortgage loans in the trust fund require the borrower to pay a charge if the borrower prepays the mortgage loan in whole or in part within a specified time. These charges are known as "Yield Maintenance Charges." Borrowers under mortgage loans that are not subject to Yield Maintenance Charges may be more likely to prepay those mortgage loans than borrowers under mortgage loans that are subject to Yield Maintenance Charges. Prepayments on mortgage loans may adversely affect the yield to maturity on your Certificates.

Disproportionately Large Mortgage Loans May Adversely Affect Yield on Certificates. Pool QS1018 contains some loans that have disproportionately large outstanding principal balances as compared to the other loans in the pool. Specifically, as of November 1, 2000, Pool QS1018 included three mortgage loans that constituted approximately 19.8%, 13.8% and 12.7% (by principal balance) of the aggregate principal balance of that pool.

Because losses on individual mortgage loans result in accelerated prepayments of principal under Farmer Mac's guarantee, those losses affect the yield on the Certificates. The effect on the yield on your Certificates may be severe if losses occur on one or more of the disproportionately large loans in the pool. If losses result in early principal payments, and if the anticipated yield on your Certificates – taking into account the purchase price you paid – is higher than prevailing market yields when these payments occur, your overall investment return will be less than you expected.

Principal payments include voluntary prepayments, which may be made in whole or in part at any time without penalty, and prepayments due to defaults, liquidations and otherwise. Principal payments on disproportionately large loans will have much more of an effect on the pass-through rate and, therefore, the yield on the Certificates than other loans in the pool. To the extent any disproportionately large loan bears interest at a rate, net of fees and expenses, greater than the then applicable pass-through rate on the Certificates, principal payments on the loan will lower the pass-through rate for the Certificates in future Interest Accrual Periods because the weighted average mortgage loan rate for the pool will decrease. If the pass-through rate decreases, you will receive less interest on your Certificates.

Limited Number of Mortgage Loans May Adversely Affect Yield on Certificates. As of November 1, 2000, Pool QS1018 included 15 mortgage loans. As is the case with mortgage loans having disproportionately large outstanding principal balances as described in the preceding risk factor, the impact of losses on individual mortgage loans in Pool QS1018 may be severe because it consists of relatively few mortgage loans.

Character of Mortgage Loans May Result in an Increased Likelihood of Prepayments. Each of the mortgage loans in the trust fund will have a fixed rate term of 10 years followed by an adjustable rate term of between 5 and 15 years. The prepayment behavior of these loans may differ from that of other mortgage loans. As an adjustable rate mortgage loan with an initial fixed rate term approaches its initial adjustment date, the borrower may become more likely to refinance the loan to avoid periodic changes to the periodic payment amount or an increase in the interest rate after the initial fixed rate period, even if fixed rate loans are available only at rates that are slightly lower or even higher than the interest rate before adjustment.

DESCRIPTION OF THE MORTGAGE LOANS

The Trust Fund will consist primarily of a pool of agricultural real estate mortgage loans (collectively, the "Qualified Loans") that will be assigned to the Trust Fund by the Depositor. For a detailed description of the characteristics of the Qualified Loans in the pool, see "*Appendix I: Description of the Qualified Loan Pool*" at the end of this prospectus supplement. The aggregate outstanding principal balance of the Qualified Loans is subject to the permitted variance described in "*Description of the Certificates – General*" in this prospectus supplement. Each Qualified Loan is secured by a first lien on Agricultural Real Estate (the "Mortgaged Properties"). The principal amount of any Qualified Loan cannot exceed $3.6 million, as adjusted for inflation; except that the principal amount of any Qualified Loan secured by Agricultural Real Estate comprised of not more than 1,000 acres may not exceed $6 million. "Agricultural Real Estate" is a parcel or parcels of land, which may be improved by buildings and machinery, fixtures and equipment or other structures permanently affixed to the parcel or parcels, that (1) are used for the production of one or more agricultural commodities and (2) include at least five acres or produce minimum annual receipts of $5,000.

All of the Qualified Loans meet Farmer Mac's Underwriting and Appraisal Standards for newly originated loans (the "Underwriting Standards"). The Underwriting Standards are described in "*Description of the Trust Funds – Qualified Loans – General*" in the prospectus.

The description of the Qualified Loans and the related Mortgaged Properties is based upon the pool as constituted at the close of business on November 1, 2000 (the "Cut-off Date"), as adjusted for any scheduled principal payments due on or before that date. Prior to the issuance of the Certificates, Qualified Loans may be removed from the pool as a result of incomplete documentation or otherwise, if the Depositor deems removal necessary or appropriate, or as a result of prepayments in full. A limited number of other Qualified Loans may be added to the pool prior to the issuance of the Certificates unless including those Qualified Loans would materially alter the characteristics of the pool as described in this prospectus supplement. The Depositor believes that the information set forth in "*Appendix I: Description of the Qualified Loan Pool*" will be representative of the characteristics of the pool as it will be constituted at the time the Certificates are issued, although the range of Mortgage Interest Rates and maturities and other characteristics of the Qualified Loans may vary. Under the Sale Agreement, the related Seller has made limited representations and warranties regarding the Qualified Loans and their origination in accordance with the Underwriting Standards. See "*Description of the Agreements – Representations and Warranties; Repurchases*" in the prospectus.

The information in "*Appendix I: Description of the Qualified Loan Pool*" regarding the Qualified Loans will be revised to reflect any adjustments in the composition of the Trust Fund and will be included in a Form 8-K to be filed with the SEC by December 14, 2000. This information will be available to Holders promptly through the facilities of the SEC as described under "*Where You Can Find Additional Information*" in the prospectus.

DESCRIPTION OF THE CERTIFICATES

General

The Certificates will be issued pursuant to a Trust Agreement, dated as of June 1, 1996, as supplemented by an Issue Supplement dated as of the Cut-off Date (together, the "Trust Agreement"), each among Farmer Mac, the Depositor and the Trustee. Reference is made to the prospectus for important additional information regarding the terms and conditions of the Trust Agreement and the Certificates. See "*Description of the Certificates*" and "*Description of the Agreements*" in the prospectus. The Certificates are issued as a separate series under the Trust Agreement with a series designation corresponding to the date this offering is completed. The Certificates will be issued in an initial Certificate Balance approximately equal to the original principal amount of Pool QS1018 subject to a permitted variance of plus or minus 5%.

The Certificates will evidence beneficial ownership interests in a trust fund (the "Trust Fund") consisting primarily of (1) the Qualified Loans; (2) the Farmer Mac Guarantee; and (3) proceeds and collections on the Qualified Loans, deposited in, or held as investments in, the Collection Accounts and the Certificate Account, each as defined and described in the prospectus. The pool of Qualified Loans is evidenced by a single class of Certificates bearing the same alphanumeric designation as the pool. Distributions of interest and principal on the Certificates will be calculated with reference to the Qualified Loans.

Farmer Mac has established a six-digit alphanumeric pool numbering system to identify specific characteristics of the Qualified Loans and to facilitate Holders' access to the related factor and other loan information that Farmer Mac publishes periodically. The first three digits are "loan identifiers." The first digit denotes the maximum original term to maturity of the Qualified Loans in the pool; the second digit denotes the scheduled payment frequency of the Qualified Loans in the pool; the third digit denotes the first month in a calendar year in which a Distribution Date for the pool occurs. The last three digits sequentially designate pools with the same three loan identifiers. The table below summarizes Farmer Mac's pool numbering system:

1st Digit	2nd Digit	3rd Digit
A=15 year fixed (with yield maintenance)	A = Annual	1 = January
B=7 year fixed	S = Semi-annual	2 = April
C=5 year conditional balloon re-set	Q = Quarterly	3 = July
D=1 year adjustable	M = Monthly	4 = October
E=3 year adjustable		
F=5 year adjustable		
G=10 year fixed		
H=30 year fixed (part-time farm)		
I=15 year fixed (partial open prepay)		
J=5 year fixed/1 year adjustable (30 year maturity)		
K=7 year fixed/1 year adjustable (30 year maturity)		
L=10 year fixed/1 year adjustable (30 year maturity)		
M=15 year fixed (part-time farm)		
N=5 year fixed/1 year adjustable (15 year maturity)		
O=7 year fixed/1 year adjustable (15 year maturity)		
P=10 year fixed/1 year adjustable (15 year maturity)		
Q=10 year fixed/1 year adjustable (25 year maturity)		

Book-Entry Certificates

The Certificates will be issued in book-entry form. Investors will hold beneficial interests in the Certificates through the book-entry system of the Federal Reserve Banks (the “Fed book-entry system”) in minimum Certificate Balances of $1,000 and additional increments of $1.

The Certificates will be maintained on the Fed book-entry system in a manner that permits separate trading and ownership. The Certificates has been assigned the CUSIP number specified on the front cover of this prospectus supplement and will be tradable separately under that CUSIP number.

Under the procedures established for the Fed book-entry system, the Federal Reserve Banks will maintain book-entry accounts for the Certificates and make distributions on the Certificates on behalf of Farmer Mac, as master servicer, on the applicable Distribution Dates by crediting Holders' accounts at the Federal Reserve Banks.

We refer to the entities whose names appear on the book-entry records of a Federal Reserve Bank as the holders of the Certificates as “Holders of Book-Entry Certificates.” A Holder of Book-Entry Certificates is not necessarily the beneficial owner of a Certificate. Beneficial owners will ordinarily hold Certificates through one or more financial intermediaries, such as banks, brokerage firms and securities clearing organizations. See “*Description of the Certificates – The Fed System*” in the prospectus. The terms “Holder” and “Holders” refer to both Holders of Book-Entry Certificates and holders of Certificates that are not Book-Entry Certificates, unless specific reference is made only to either Holders of Book-Entry Certificates or holders of Certificates that are not Book-Entry Certificates.

Issuance of the Certificates in book-entry form may reduce the liquidity of the Certificates in the secondary market because some investors may be unwilling to purchase Certificates for which they cannot obtain physical certificates. See “Risk Factors – Your investment in the certificates will have limited liquidity” in the prospectus.

Distributions

General. Distributions of principal and interest on the Certificates will be made on a semi-annual basis on the 25th day of each January and July beginning January 25, 2001 (each, a “Distribution Date”). If any of those days is not a Business Day (a “Business Day” is a day other than Saturday, Sunday or a day on which the Federal Reserve Bank of New York authorizes banking institutions in the Second Federal Reserve District to be closed, or banking institutions in New York are authorized or obligated by law to be closed or Farmer Mac is closed), distributions will be made on the next succeeding Business Day to persons in whose names the Certificates are registered on the applicable Record Date. The “Record Date” for any class and related Distribution Date will be the close of business on the last Business Day of the month preceding the month in which the Distribution Date occurs.

The final Distribution Date for the Certificates has been set to coincide with the latest maturing underlying Qualified Loan.

Interest. Interest on the Certificates will be distributed on each Distribution Date in an aggregate amount equal to the Accrued Certificate Interest for that Distribution Date. “Accrued Certificate Interest” for each Distribution Date will equal the amount of interest accrued during the related Interest Accrual Period at the applicable Pass-Through Rate on the Certificate Balance immediately prior to the Distribution Date.

Interest on the Certificates will be calculated on the basis of a 360-day year consisting of twelve 30-day months. As of any date of determination, the "Certificate Balance" of the Certificates will equal the initial Certificate Balance less all amounts distributed on the Certificates as principal on all previous Distribution Dates.

Interest will accrue on the Certificates at a variable rate per annum (the "Pass-Through Rate") equal to the weighted average of the Net Mortgage Rates of the Qualified Loans. The "Net Mortgage Rate" for each Qualified Loan will equal its stated interest rate (the "Mortgage Interest Rate") less a rate representing the combined fees of the applicable central servicer, Farmer Mac, as master servicer, and Farmer Mac, as guarantor (the "Administrative Fee Rate"). The weighted average Administrative Fee Rate as of the Cut-off Date is set forth in "*Appendix I: Description of the Qualified Loan Pool*." The Pass-Through Rate for each Distribution Date is calculated by (1) multiplying the outstanding balance of each Qualified Loan by its Net Mortgage Rate to derive the Qualified Loan's weighted interest amount ("Weighted Interest Amount"); (2) dividing the sum of all the Weighted Interest Amounts by the Certificate Balance, before giving effect to the distribution of principal on the related Distribution Date; and (3) truncating the interest rate to three decimal places.

Principal. Principal of the Certificates will be distributed on each Distribution Date in an aggregate amount equal to the "Principal Distribution Amount," which will equal the sum of (1) the principal portion of all scheduled payments (including any Balloon Payments) on the Qualified Loans due during the preceding Due Period; (2) the scheduled principal balance of each Qualified Loan that was repurchased or became a Liquidated Qualified Loan during the preceding Due Period; and (3) all full or partial principal prepayments received during the preceding Due Period. A "Liquidated Qualified Loan" is generally any defaulted Qualified Loan as to which it has been determined that all amounts to be received on the loan have been recovered.

Certificate Pool Factors. As soon as practicable following the fifth Business Day of each month of a Distribution Date, Farmer Mac will make available to financial publications and electronic services, among other things, the factor (carried to eight decimal places) that, when multiplied by the original Certificate Balance of a Certificate evidencing an interest in that pool, will equal the remaining principal balance of the Certificate after giving effect to the distribution of principal to be made on the Distribution Date in that month.

Advances

Under the terms of the various Servicing Contracts, some central servicers will be required to advance their own funds delinquent Qualified Loans and other central servicers will not be required to so advance. Because Farmer Mac guarantees timely distribution of interest and principal on the Certificates (including any Balloon Payments), the presence or absence of an advancing obligation will not affect distributions of interest and principal to Holders.

FARMER MAC

The Federal Agricultural Mortgage Corporation, which is also known as Farmer Mac, is a federally chartered instrumentality of the United States established by Title VIII of the Farm Credit Act of 1971, as amended (the "Farmer Mac Charter"). See "*Federal Agricultural Mortgage Corporation*" in the prospectus.

FARMER MAC GUARANTEE

Pursuant to the Trust Agreement, Farmer Mac will guarantee (the "Farmer Mac Guarantee") the timely distribution of interest accrued on the Certificates and the distribution of the full Principal Distribution Amount (including any Balloon Payments) for the related pool and Distribution Date. In addition, Farmer Mac is obligated to distribute on a timely basis the outstanding Certificate Balance of the Certificates in full no later than the related Final Distribution Date (as set forth on the front cover of this prospectus supplement), whether or not sufficient funds are available in the Certificate Account.

Farmer Mac's obligations under the Farmer Mac Guarantee are obligations solely of Farmer Mac and are not backed by the full faith and credit of the United States. Furthermore, Farmer Mac anticipates that its future contingent liabilities for guarantees of outstanding securities backed by agricultural mortgage loans will greatly exceed its resources, including its limited ability to borrow from the United States Treasury. See "*Outstanding Guarantees*" in this prospectus supplement and "*Risk Factors – Farmer Mac's guarantee of the timely payment of interest on and principal of certificates is limited*" and "*Description of the Trust Funds – The Assets in Each Trust Fund*" in the prospectus.

OUTSTANDING GUARANTEES

As of the Cut-off Date, Farmer Mac had outstanding guarantees on approximately $2.9 billion aggregate principal amount of securities (including approximately $491.8 million of securities evidencing assets that are guaranteed by the Secretary of the United States Department of Agriculture). Farmer Mac is authorized to borrow up to $1.5 billion from the Secretary of the Treasury, subject to certain conditions, to enable Farmer Mac to fulfill its guarantee obligations. See "*Federal Agricultural Mortgage Corporation*" in the prospectus. As of the Cut-off Date, Farmer Mac had not borrowed any amounts from the Secretary of the Treasury to fund guarantee payments.

YIELD, PREPAYMENT AND MATURITY CONSIDERATIONS

The rate of payment of principal on the Certificates and their yield to maturity will correspond directly to the rate of payments of principal on the Qualified Loans. The rate of payments of principal of the Qualified Loans will in turn be affected by the rate of principal prepayments by borrowers, by liquidations of defaulted Qualified Loans, by repurchases as a result of defective documentation and breaches of representations and warranties or for other reasons. There is little or no historical data available to provide assistance in estimating the rate of prepayments and defaults on loans secured by Agricultural Real Estate generally or the Qualified Loans particularly.

In the case of Qualified Loans, social, economic, political, trade, geographic, climatic, demographic, legal and other factors may influence prepayments and defaults, including the age of the Qualified Loans, the geographic distribution of the related Mortgaged Properties, the payment terms of the Qualified Loans, the characteristics of the borrowers, weather, economic conditions generally and in the geographic area in which the Mortgaged Properties are located, enforceability of due-on-sale clauses, servicing decisions, the availability of mortgage funds, the extent of the borrowers' net equity in the Mortgaged Properties, mortgage market interest rates in relation to the effective interest rates on the Qualified Loans and other unforeseeable variables, both domestic and international, affecting particular commodity groups and the farming industry in general. Generally, if prevailing interest rates fall significantly below the interest rates on the Qualified Loans, the Qualified Loans are likely to be subject to higher prepayments than if prevailing rates remain at or above the interest rates on the Qualified Loans. Conversely, if prevailing interest rates rise above the interest rates on the Qualified Loans, the rate of prepayment would be expected to decrease. There can be no certainty as to the rate of prepayments on the Qualified Loans during any period or over the lives of the Certificates. The rate of default on the Qualified Loans will also affect the rate of payment of principal on the Qualified Loans. Prepayments, liquidations and repurchases of the Qualified Loans will result in distributions to Holders of the Certificates of amounts that would otherwise be distributed over the remaining terms of the Qualified Loans.

In addition, all of the Qualified Loans include “due-on-sale” clauses; however, it is generally the policy of the central servicers not to enforce those clauses unless the transferee of the related Mortgaged Property does not meet the Underwriting Standards of Farmer Mac and the Servicing Contracts do not require any enforcement. In addition, at the request of the borrower, the applicable central servicer may allow the partial release of a Mortgaged Property provided the collateral property is reappraised and a partial prepayment is made such that the resulting loan-to-value ratio is no greater than 70% and the cash flows from the remaining property are sufficient to service the remaining debt. A partial release may result in a prepayment in part on the related Qualified Loan and a corresponding reamortization of the unpaid principal balance of the Qualified Loan to the maturity date (or the original amortization date if the Qualified Loan provides for a Balloon Payment) for the loan. Any Qualified Loan as to which a partial release occurs will remain in the Trust Fund.

The yield to maturity to investors in the Certificates of a class will be sensitive to the rate and timing of principal payments (including prepayments) of the Qualified Loans, which generally can be prepaid at any time, subject to the restrictions described above. In addition, the yield to maturity on a Certificate may vary depending on the extent to which the Certificate is purchased at a discount or premium. Investors should consider, in the case of any Certificates purchased at a discount, the risk that a slower than anticipated rate of principal payments on the related Qualified Loans could result in an actual yield that is lower than the anticipated yield and, in the case of any Certificates purchased at a premium, the risk that a faster than anticipated rate of principal payments on the related Qualified Loans could result in an actual yield that is lower than the anticipated yield.

The timing of changes in the rate of prepayments on the Qualified Loans may significantly affect an investor's actual yield to maturity, even if the average rate of principal payments is consistent with an investor's expectation. In general, the earlier a prepayment of principal of the related Qualified Loans, the greater the effect on an investor's yield to maturity. The effect on an investor's yield of principal payments occurring at a rate higher (or lower) than the rate anticipated by the investor during the period immediately following the issuance of the Certificates may not be offset by a subsequent like decrease (or increase) in the rate of principal payments. An investor must make an independent decision as to the appropriate prepayment scenario to be used in deciding whether to purchase the Certificates.

Investors should consider the risk that rapid rates of prepayments on the Qualified Loans, and therefore of principal payments on the Certificates, may coincide with periods of low prevailing interest rates. During those periods, the effective interest rates on securities in which an investor may choose to reinvest amounts received as principal payments on the investor's Certificate may be lower than the applicable Pass-Through Rate. Conversely, slow rates of prepayments on the Qualified Loans, and therefore of principal payments on the related class of Certificates, may coincide with periods of high prevailing interest rates. During those periods, the amount of principal payments available to an investor for reinvestment at high prevailing interest rates may be relatively low.

The Pass-Through Rate for the Certificates will equal the weighted average of the Net Mortgage Rates of the Qualified Loans. Prepayments of Qualified Loans with relatively higher Mortgage Interest Rates, particularly if the Qualified Loans have larger unpaid principal balances, will reduce the Pass-Through Rate for the Certificates from that which would have existed in the absence of prepayments. In addition, the Qualified Loans will not prepay at the same rate or at the same time. Qualified Loans with relatively higher Mortgage Interest Rates may prepay at faster rates than Qualified Loans with relatively lower Mortgage Interest Rates in response to a given change in market interest rates. If differential prepayments were to occur, the yield on the Certificates would be adversely affected.

The effective yield to the Holders will be lower than the yield otherwise produced by the applicable purchase price and Pass-Through Rate because the distributions of principal, if any, and interest will not be payable to Holders until at least the 25th day of the month following the period in which interest accrues (without any additional distribution of interest or earnings for the delay).

DESCRIPTION OF THE AGREEMENTS

The Certificates will be issued pursuant to the Trust Agreement. Farmer Mac will act as master servicer of the Qualified Loans. The Qualified Loans will be directly serviced by one or more central servicers acting on behalf of Farmer Mac, each pursuant to a Master Central Servicing Contract (as supplemented) between the central servicer and Farmer Mac (the "Servicing Contract"). See "*Description of the Agreements*" in the prospectus. For a statement of the numbers of Qualified Loans (and related principal balances) serviced by each central servicer, see the narrative description set forth in "*Appendix I: Description of the Qualified Loan Pool*." Each central servicer may subcontract the performance of some of its servicing duties to a subservicer who may be the seller (the "Seller") and/or originator of the respective Qualified Loans. In addition, each of the Sellers of the Qualified Loans has transferred and assigned its respective Qualified Loans to the Depositor pursuant to a separate Selling and Servicing Agreement or a Master Loan Sale Agreement (a "Sale Agreement"). The Sale Agreement includes limited representations and warranties by the related Seller regarding the related Qualified Loan. Farmer Mac will assign these representations and warranties and the remedies for their breach to the Trustee for the benefit of Holders pursuant to the Trust Agreement. See "*Description of the Agreements – Representations and Warranties; Repurchases*" in the prospectus.

Trustee

The trustee (the "Trustee") for the Certificates pursuant to the Trust Agreement will be U.S. Bank Trust National Association, a national banking association organized and existing under the federal laws of the United States with an office at 180 East Fifth Street, St. Paul, Minnesota 55101.

Servicing and Other Compensation and Payment of Expenses

Each central servicer will be paid a servicing fee calculated on a loan-by-loan basis. Additional servicing compensation in the form of assumption fees or similar fees (other than late payment charges in some cases) may be retained by the central servicers. The Depositor, Farmer Mac, as master servicer, and the central servicers are obligated to pay all expenses incurred in connection with their respective responsibilities under the Trust Agreement and the Servicing Contracts (subject to reimbursement for liquidation expenses), including the fees of the Trustee, and also including, without limitation, the various other items of expense enumerated in the prospectus. See "*Description of the Certificates*" in the prospectus.

Optional Termination

As master servicer, Farmer Mac may effect an early termination of the Trust Fund on any Distribution Date when the aggregate principal balance of Qualified Loans in the Trust Fund is less than one percent of their aggregate principal balance as of the Cut-off Date. If Farmer Mac elects to terminate the Trust Fund, it will repurchase all the Qualified Loans and REO Property at a price equal to 100% of the unpaid principal balance of the Qualified Loans, including any Qualified Loans as to which the related property is held as part of the Trust Fund, plus accrued and unpaid interest on the Qualified Loans at the applicable Mortgage Interest Rate, determined as provided in the Trust Agreement. The proceeds of this repurchase will be distributed to Holders of the Certificates on the Distribution Date. See "*Description of Certificates – Termination*" in the prospectus.

Repurchases of Qualified Loans

Under the Trust Agreement, Farmer Mac, as master servicer, will have the right (without obligation and in its discretion) to repurchase from the Trust Fund, upon payment of the purchase price provided in the Trust Agreement, any Qualified Loan at any time after the loan becomes and remains delinquent as to any scheduled payment for a period of ninety days. Farmer Mac will also have a similar right to purchase from the Trust Fund any property acquired by the Trust Fund upon foreclosure or comparable conversion of any Qualified Loan ("REO Property"). See also "*Description of the Agreements – Representations and Warranties; Repurchases*" in the prospectus.

THE DEPOSITOR

Farmer Mac Mortgage Securities Corporation, the Depositor, is a wholly owned subsidiary of Farmer Mac and was incorporated in the State of Delaware in December 1991. The principal executive offices of the Depositor are located at 919 18th Street, N.W., Washington, D.C. 20006. The Depositor's telephone number is 202/872-7700.

MATERIAL FEDERAL INCOME TAX CONSEQUENCES

The following general discussion of material anticipated federal income tax consequences of an investment in the Certificates is to be considered only in connection with the discussion in the prospectus under the caption "*Material Federal Income Tax Consequences*."

No election will be made to treat the Trust Fund as a real estate mortgage investment conduit, or REMIC, for federal income tax purposes. The Depositor expects that: (1) the Trust Fund will be treated as a grantor trust for federal income tax purposes and not as an association taxable as a corporation; (2) a Certificate owned by a real estate investment trust representing an interest in Qualified Loans will be considered to represent "real estate assets" within the meaning of Section 856(c)(4)(A) of the Internal Revenue Code of 1986, as amended (the "Code"), and interest income on the Qualified Loans will be considered "interest on obligations secured by mortgages on real property" within the meaning of Code Section 856(c)(3)(B), to the extent that the Qualified Loans represented by that Certificate are of a type described in that Code section; and (3) a Certificate owned by a REMIC will represent "obligation[s] . . . which [are] principally secured by an interest in real property" within the meaning of Code Section 860G(a)(3) to the extent that the Qualified Loans represented by that Certificate are of a type described in that Code section. If the value of the real property securing a Qualified Loan is lower than the amount of the Qualified Loan, that Qualified Loan may not qualify in its entirety under the foregoing Code sections. The Holders will be treated as owners of their pro rata interests in the assets of the Trust Fund.

The Trust Fund intends to account for all servicing fees as reasonable servicing fees. However, if any servicing fees, determined on a Qualified Loan by Qualified Loan basis, were determined to exceed reasonable servicing fees, the Certificates would be treated as representing an interest in one or more "stripped bonds."

Potential investors should consult their tax advisors before acquiring Certificates.

ERISA CONSIDERATIONS

The acquisition of Certificates by a plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), or any individual retirement account ("IRA") or any other plan subject to Code Section 4975 could, in some instances, result in a prohibited transaction or other violations of the fiduciary responsibility provisions of ERISA and Code Section 4975. Exemptions from the prohibited transaction rules could, however, be applicable.

As discussed under the caption "*ERISA Considerations*" in the prospectus, Final Regulations (as defined in the prospectus) provide a plan asset exception for a Plan's (as defined in the prospectus) purchase and holding of "guaranteed governmental mortgage pool certificates." The Final Regulations provide that where a Plan acquires a guaranteed governmental mortgage pool certificate, the Plan's assets include the certificate and all of the Plan's rights relating to the certificate under applicable law, but do not, solely by reason of the Plan's holding of the certificate, include any of the mortgages underlying the certificate. The term "guaranteed governmental mortgage pool certificate" is defined as a certificate backed by, or evidencing an interest in, specified mortgages or participation interests in specified mortgages whose interest and principal payments are guaranteed by the United States or an agency or instrumentality of the United States. The Department of Labor has advised Farmer Mac that the Certificates satisfy the conditions set forth in the Final Regulations and thus qualify as "guaranteed governmental mortgage pool certificates." Accordingly, none of Farmer Mac, the trustee, the master servicer or any central servicer will be subject to ERISA standards of conduct in dealing with Qualified Loans or other trust fund assets.

Prospective Plan investors should consult with their legal advisors concerning the impact of ERISA and the Code, and the potential consequences in their specific circumstances, prior to making an investment in the Certificates. Moreover, each Plan fiduciary should determine whether under the general fiduciary standards of investment prudence and diversification, an investment in the Certificates is appropriate for the Plan, taking into account the overall investment policy of the Plan and the composition of the Plan's investment portfolio. See "*ERISA Considerations*" in the prospectus.

LEGAL INVESTMENT

Because the Certificates will constitute securities guaranteed by Farmer Mac for purposes of the Farmer Mac Charter, they will, by statute, be legal investments for some types of institutional investors who are authorized to purchase, hold, or invest in obligations issued by or guaranteed as to principal and interest by the United States or any agency or instrumentality of the United States. Investors whose investment authority is subject to legal restrictions should consult their own legal advisors to determine whether and the extent to which the Certificates constitute legal investments for them.

METHOD OF DISTRIBUTION

The Certificates are being offered and sold directly by Farmer Mac.

There is currently no secondary market for the Certificates.

FORWARD-LOOKING STATEMENTS

Some statements in this prospectus supplement represent our expectations or projections for the certificates offered by this prospectus supplement only as of the date of this prospectus supplement. You can generally identify those statements, which are called "forward-looking statements," by the use of the words "may," "will," "expect," "intend," "estimate," "anticipate" or "believe" or similar language.

We believe the expectations expressed in all forward-looking statements are reasonable and accurate based on information we currently have. However, our expectations may not prove to be correct. Important factors that could cause actual results to differ from our expectations are disclosed under "*Risk Factors*" and in other parts of this prospectus supplement. You should always consider those factors in evaluating any subsequent written and oral forward-looking statements by us, or persons acting on our behalf, in connection with this offering.

We will not report to the public any changes to any forward-looking statements to reflect events, developments or circumstances that occur after the date of this prospectus supplement.

INDEX OF PRINCIPAL TERMS

Unless the context indicates otherwise, the following terms shall have the meanings set forth on the pages indicated below.

APPENDIX I: DESCRIPTION OF THE QUALIFIED LOAN POOL

This Appendix describes the Qualified Loans and the related Mortgaged Properties based on the pool as constituted at the close of business on November 1, 2000, as adjusted for the scheduled principal payments due before that date. Before we issue the Certificates, Qualified Loans may be removed from the pool: (1) if the Depositor deems removal necessary or appropriate; (2) as a result of prepayments in full; or (3) as a result of incomplete documentation or otherwise. A limited number of other Qualified Loans may be added to the pool before we issue the Certificates unless the addition of those Qualified Loans would materially alter the characteristics of the pool as described in this Appendix. The Depositor believes that the information set forth below will be representative of the characteristics of the pool as it will be constituted at the time we issue the Certificates, although the range of Mortgage Interest Rates and maturities and other characteristics of the Qualified Loans in the pool may vary.

The composition of the pool is subject to adjustment, with the amount of the variance restricted to no more than 5% of the aggregate principal balance of the Qualified Loans in the pool, as stated below. The information regarding the Qualified Loans will be revised to reflect any adjustments and will be included on a Form 8-K to be filed with the SEC by December 14, 2000. This information will be available to Holders of Certificates through the facilities of the SEC as described under "*Where You Can Find Additional Information*" in the prospectus.

Percentages and principal balances of Qualified Loans in the following tables have been rounded. Accordingly, the total of the percentages in any given column may not add to 100% and the total of the principal balances in any given column may not add to the amount shown as the total for the column.

DESCRIPTION OF POOL QS1018

The Qualified Loans in Pool QS1018 will have had individual principal balances as of the Cut-off Date of not less than $143,000 and not more than $1,638,000. None of the Qualified Loans in Pool QS1018 will have been originated before September 22, 2000. None of the Qualified Loans in Pool QS1018 will have a scheduled maturity before January 1, 2016 or after January 1, 2026. The Qualified Loans in Pool QS1018 will have a weighted average Administrative Fee Rate as of the Cut-off Date of approximately 1.287%.

None of the Qualified Loans in Pool QS1018 require the payment of a Yield Maintenance Charge in connection with any principal prepayment, in whole or in part.

Six of the Qualified Loans in Pool QS1018 (approximately 36% by aggregate outstanding principal balance as of the Cut-off Date) provide for the semi-annual payment of principal and interest on a level basis to amortize fully each such Qualified Loan over its stated term. All of the remaining Qualified Loans in Pool QS1018 are balloon loans that provide for: (1) regular semi-annual payments of principal and interest based on an amortization schedule that is longer than the related term to stated maturity; and (2) payment at stated maturity of a lump sum or "balloon" payment equal to the remaining principal balance of the loan, which payment is significantly larger than the semi-annual payments (each, a "Balloon Payment").

Each Qualified Loan in Pool QS1018 is an adjustable rate mortgage loan that has an initial interest rate that will remain fixed for ten years from the date of origination and then will adjust annually to an interest rate determined by adding the gross margin indicated in the following schedule to the then current average yield on U.S. Treasury securities, adjusted to a constant maturity of one year, or one-year CMT.

Eight of the Qualified Loans in Pool QS1018 were processed through Fast Track. Under the Fast Track process, a loan is determined to be a Qualified Loan if it is secured by a first lien on Agricultural Real Estate, the loan is for not more than $750,000, the LTV is not greater than 55% and the borrower has a Fair Isaac credit score of at least 660.

Zions First National Bank will be the central servicer for all of the Qualified Loans in Pool QS1018, which have an aggregate principal balance of $8,257,250 as of the Cut-off Date.

The following schedule provides specific information for each Qualified Loan and certain summary data for Pool QS1018.

Total Balance: $8,257,250.00

Total Number of Loans: 15

Summary Information:

	Cut-off Date Principal Balance	Mortgage Rate	Net Mortgage Rate	Administrative Fee Rate	Maturity Date (5)	Remaining Amortization Term (6)	Next Reset Date (5)	Gross Margin	Loan-to-Value Ratio	Total Debt Coverage Ratio (4)
Weighted Average	$550,483	8.708%	7.420%	1.287%	01/01/2020	300	01/01/2011	3.397%	59%	1.62
Minimum	$143,000	8.340%	7.235%	1.105%	01/01/2016	300	01/01/2011	3.215%	15%	1.37
Maximum	$1,638,000	9.340%	7.485%	1.855%	01/01/2026	300	01/01/2011	3.965%	70%	2.23

(1) PI = Principal and Interest for a full period. IO = Next payment will be interest only.

(2) B = Balloon Loan. F = Fully Amortizing.

(3) The Balloon-to-Value Ratio is the percentage of the Balloon Payment of each Qualified Loan in the Pool to the appraised value of the related Mortgaged Property.

(4) Total Debt Coverage Ratio is the ratio determined by dividing the borrower's total annual net income (net of living expenses and taxes) from all sources by the borrower's total annual debt service obligations (including capital lease payments). Loans that were processed through Fast Track will have no Total Debt Coverage Ratio calculated.

(5) The Weighted Average Maturity Date and the Weighted Average Next Reset Date are both rounded to the next payment date.

(6) The Remaining Amortization Term represents the number of amortization periods covered in months. For example, 300 months on an annual pay loan represents 25 amortization periods.
